

How LSVT LOUD® Can Help Your Clients

LSVT LOUD is highly effective, evidence-based speech therapy that improves communication and quality of life in people with Parkinson's disease (PD) and other neurological conditions.

It is the **only** speech treatment with **level one evidence** validating its efficacy for people with PD.

What is Unique about LSVT LOUD®?

Scan QR code with phone camera to view reference list

- **Research-based:** Scientifically validated over the last 30 years with research funding from the National Institutes of Health, Office of Education, Michael J. Fox Foundation and others. The only speech treatment with level 1 evidence!
Other speech treatments for PD only have early phase research.
- **Intensive:** Individual 60-minute sessions, 4 days a week for 4 weeks with daily homework and carryover exercises. *Why?* This dosage is consistent with principles of neuroplasticity and proven by years of research.
Provide lasting results you can count on!
- **Holistic:** Addresses not only the motor speech disorder, but also underlying non-motor and sensory symptoms affecting speech and learning.
Learn the keys to helping patients use their improved voice outside of therapy!
- **Function-focused:** Goes well beyond general speech exercises!
Train real-world functional speech goals in a progressively challenging manner.
- **Personalized:** Improves communication for your clients at home, work and play.
Incorporates meaningful and varied speech materials and individualized goals.
- **Multidisciplinary:** Team up with PTs and OTs certified in LSVT BIG to improve mobility, balance, and activities of daily living and communication.
Discover the power of training a common target of amplitude.
- **Application beyond Parkinson's:** Researched and used in adults with other neuro disorders as well as children with cerebral palsy and Down syndrome.
Expand your use of this neuro-based, research-driven treatment.

Tools to Support LSVT LOUD Treatment Gains

LOUD for LIFE® Maintenance Classes: Community-based exercise groups for people who have completed LSVT LOUD treatment.

LSVT Companion® System, Client Edition (English & German): This system helps people with PD practice their LSVT LOUD voice exercises at home during and after LSVT LOUD treatment.
